

Matthew Avrillio

Computer Science Student

Student in Computer Science at Bina Nusantara University, currently in the 5th semester, taking the Software Engineering streaming program, with a 3.96 GPA, awarded 3rd place for storytelling in English, contributing as an Assistant Manager of learning Management in Bina Nusantara English Club and Staff of the Research and Development division in Cyber Security Community. Seeking an internship with intentions of developing my front-end development, full stack development, and/or application development skills. I look forward to learn a lot from this internship and continue to develop those skills in future efforts.
